

WEDDING CAKE PRICE LIST 2025

Below you will find our pricing guide for naked, semi-naked and fully iced cakes along with the portion guides for each size of cake for finger portions and dessert portions. Our price list does not include decoration and is based on our classic vanilla sponge. The final cost of your cake will depend on the decoration style you choose and the flavours you opt for/.

All cake tiers are 4 layers of cake sandwiched with buttercream/ganache and jams/curd/coulis depending on the flavour chosen. Each tier is approximately 6-7" tall compared to the traditional height of 3" tall.

We deliver and set up all of our tiered wedding cakes at your venue on the day of your wedding. Delivery chargers are £0.95 per mile Including return from our base in Falmouth and set up charges at the venue are £15 per hour. Most wedding set ups take 1-2hrs but some may take as long as 3hrs.
